1. The drawings were received on 12/13/04. These drawings are approved.
2. The specification is objected to as failing to provide proper antecedent basis for the claimed subject matter. See 37 CFR 1.75(d)(1) and MPEP § 608.01(o). Correction of the following is required: Much of the claim terminology is not supported by the specification. Applicant should incorporate the claim terminology into the Detailed Description of the Invention. The examiner considers that the claimed subject matter (but not the terminology), as now presented, is supported at least by the originally filed drawings. Applicant is strongly cautioned not to add any subject matter that is not supported by the originally filed drawings and/or specification.
3. Claims 21-38 are allowed.
